Product highlights

Free calls worldwide via WLM
**To your online Windows Live™ Messenger or MSN Messenger contacts only, via Windows Live™ Messenger 8.0. System requirements: Windows XP or later / Windows Live™ Messenger 8.0. Visit: http://get.live.com/messenger/overview. Separately purchased Internet connection required (broadband recommended). Microsoft, Windows, the Windows logo, Windows Live and MSN are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries and are used under license from Microsoft.*

Landline and Internet calls
As your dual phone is connected to both the standard PSTN line AND to the Internet line, you can establish or receive landline and Internet calls on the same handset.

Direct WLM key
With a single press on the Windows Live™ Messenger key, you can directly access your Windows Live™ Messenger or MSN® Messenger contacts list. The list of the users logged on to Windows Live™ Messenger or MSN® is displayed and you can see their online status.

See who is on line
Enjoy making Free calls over the Internet without sitting in front of your computer. You can access to your Windows Live™ Messenger contacts list directly on your handset simply by pressing its direct Windows Live™ key.

Cheap call to standard number
*Windows Live™ Call offers affordable global rates to standard phone numbers (landline or mobile phone number). ** This service is proposed via Windows Live™ Messenger and requires pay service provided by designated third party.*

Recognized by Windows
Simply connect the phone to the USB of your PC and the installation will be done directly. Windows automatically recognizes the phone. This is completely plug & play.
